

## Sintra Plastic Check Separator Rack -- Modular Units – Assembly Instructions

These check separators can be used individually as “two pocket” separators or they may be combined to make “four pocket, Six pocket, or even 8 pocket separators.

**To combine units, join the pocket sides of two units together and attach the included “Binder Clips, to the joined sides, one at the top of the joined pocket sides and one at the lower front pocket sides. Fold the clips back against the side walls of the pocket divider.**
